

OBLÌ

Corten Chaise longue

DESCRIPTION

The Oblì collection, composed of chaise longue and metal armchair, represents the proposal signed by TrackDesign that elegantly furnishes the external and internal environments.

The Apulian designer Alessandra Savio, has designed the high and enveloping backrests detailed by the oblique lines obtained through the press-bending and cutting processes of the corten steel sheet. The wide and comfortable seats are equipped with soft cushions customizable on request. In the picture the furnishings are combined with the LILA coffee table Lila.
