

LEGGERO 02

Extendable Corten table

Leggero is the corten table that combines Italian production with style industrial. The table is made using corten steel sheets with minimum thicknesses to which the oak wood of the extendable top is integrated. The industrial and minimal style of the furniture allows to place the object in different environments. The table extends through two extensions of the wood top to accommodate up to twelve seats. The bar table and stool also belong to the same collection.
