

BRICKS

Bench in corten steel and wood

The Bricks bench was born from the union of two natural materials and warm shades, corten and solid wood, which establish strong sensory contrasts and find easy placement in urban environments and extra-urban parks.

A modular succession of blocks in okumè wood insists on a corten base structure. The wooden backrest starts from the blocks, which is slightly inclined and follows the natural posture.

This succession of blocks and empty spaces recalls a fundamental theme in architecture and design, namely that of the alternation of full and empty, shadow and light, hot and cold, metal and wood.

The bench is available in two solutions with or without backrest.

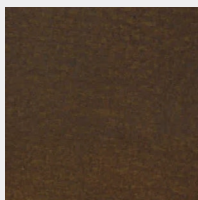

DETAILS

Brand	TrackDesign
Designer	TrackDesign
Typology	Bench
Collection	Bricks
Size	L 110 cm, W 48 cm, H 72 cm, seat H 40 cm
Materials	Corten and Okumè solid wood
Weight	85 kg

PRODUCT CONFIGURATION

AVAILABLE MATERIALS

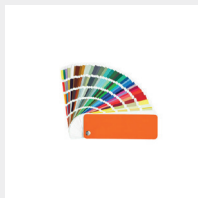

Available in:

Controlled oxidation
corten for outdoor use

AVAILABLE COLORS AND FINISHES

Painted steel available in the colors:

RAL
to be agreed upon
