

KEHOPS

Chair

The KEHOPS seats, available both as armchairs and benches, are the soul of this collection. Their graceful, rounded structure remind of the dunes surrounding the pyramids represented by the triangular patterns precisely cut from the waxed steel. This bewitching model can adapt to an urban environment as well as a chic interior. These foundations embrace the aestheticism and symbolism of the pyramids, one of the oldest human constructions still intact.

DETAILS

Brand	TrackDesign
