

## DAD

### Corten coffee table

Dad is the pair of multi-purpose small tables in corten. The designer Dario Mascolo designed a Low Table for living room that, thanks to a metallic "pocket", allows to collect magazines and small objects. The collection DAD tables are customizable. In the higher version, Dad becomes an entrance table that combines the function of umbrellas and clothes racks thanks to the two rear hooks. Besides the variant in Corten, at the customer's request, it is possible to buy the table with double finish, corten and polished \*painted steel.

\* The painted table detail can be customized at the customer's request in the product section on our website.
